6S CLEANING STATION

With the Cleaning Station **you can:**

- Reduce time searching for cleaning tools
- Differentiate between production areas
- Increase life of cleaning tools
- Add professionalism to your workplace

A Cleaning Station **consists of:**

- A hand sanitizer holder
- A dustpan and wiper holder
- A hidden trash bin compartment
- A separate compartment for tin cans
- Storage room on both sides for brooms, mops...

Implement your own logo

Compatible with System Bott

A central point for essential cleaning equipment to be stored

6S Programme

1. Sort

Separate needed from unneeded items, eliminate what isn't needed

2. Set in Order

Neatly arrange what is left after sorting – a place for everything, everything in its place

3. Shine

Clean, wash & inspect the work area

4. Standardise

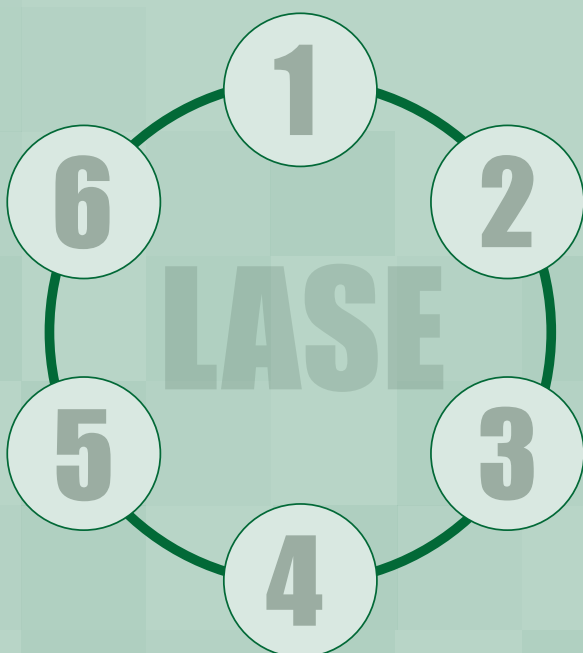

Create a standard practice for the above, this results in cleanliness from regular performance of the first three S

5. Sustain

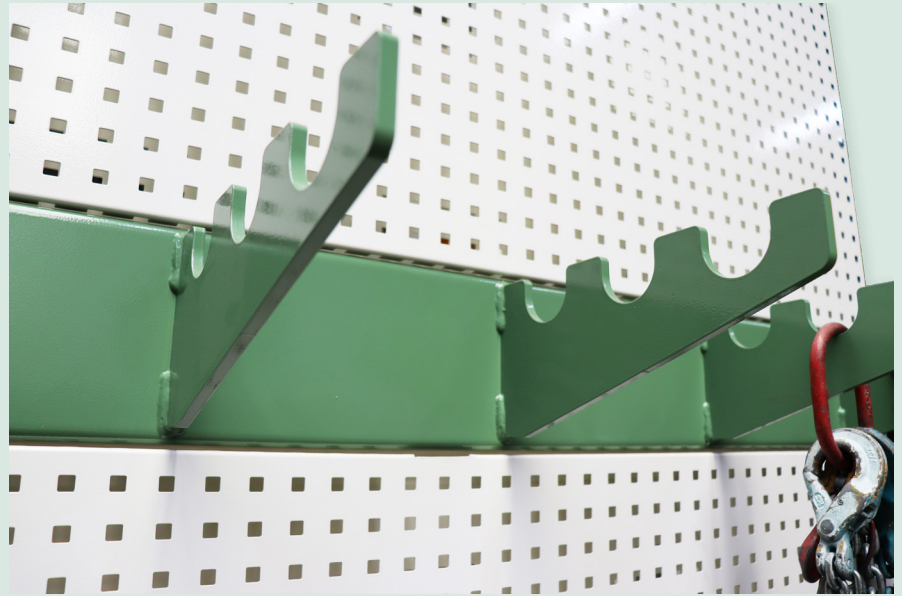

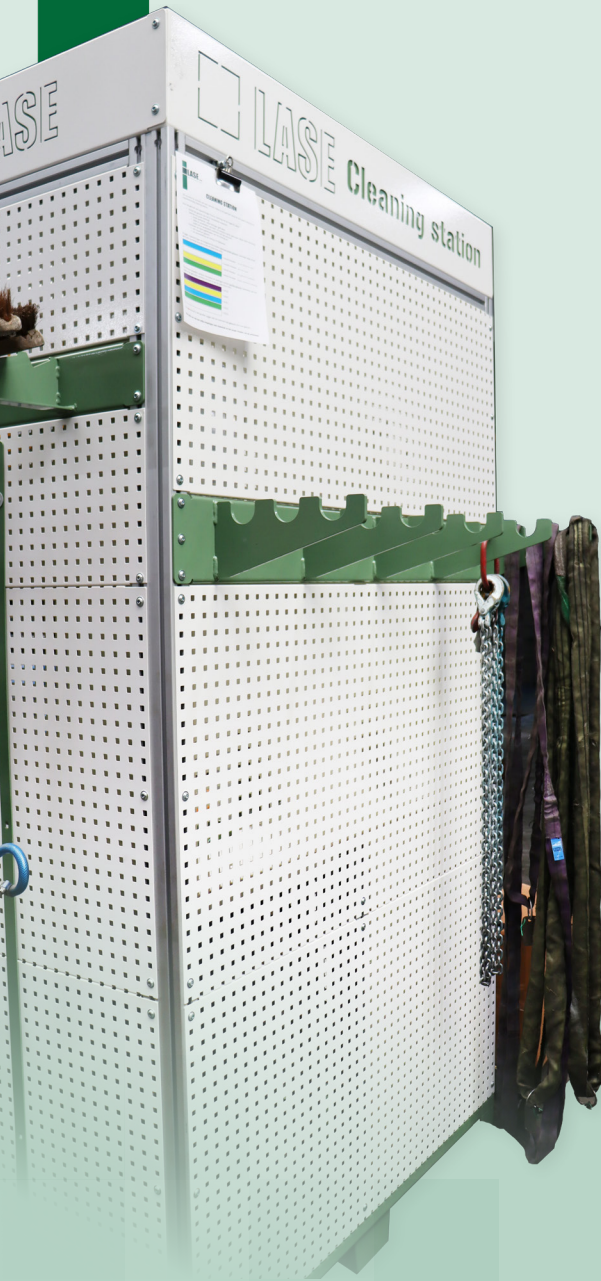

This is being disciplined to continuously perform the first four S

6. Safety

Identify and eliminate all hazards for a zero accident and injury free workplace

6S CLEANING STATION

**Multiple options and
personalization possible!**

**Hooks for lifting equipment
in the back**
